

Objective:

Using the skills I acquired to rapidly and effectively communicate creative ideas to all forms of design.

Education:

Rochester Institute of Technology 1996-2001

Bachelor of Fine Arts in Graphic Design

Gained the skills of graphic design using type, image, interactivity, and layout to communicate ideas.

Experience:

Custom Learning Designs, Inc. 2005/Present

Senior Graphic Designer

Working with medical illustrators, designers and programmers to create user interface flats, marketing emails, eTutorial and eWorkshop content and various print/web sales materials. I managed the design of many projects from a concept style guide to final delivery. These skills have given me the ability to manage my time in a design workflow environment and ensure the branding is consistent throughout each project.

The Lexington Press, Inc. 1996/1997/2005

Utilizing the skills of both graphic design and pre-press to maintain the customers' requirements for various jobs in a steady workflow environment.

Copy Cop, Inc. 1999/2002

Logging in and running jobs for digital pre-press and design to output on a variety of copiers and poster output devices.

Brand Equity 2001-2002 *Freelance*

Maintained design standards for the HTH Pool project and preparing for output at a diverse selection of vendors.

Kinko's Document Creation Center 2001

Creating and transferring designs via FTP and E-mail to Kinko's throughout New England and NY in a fast paced environment.
